

## Era medical college

Era medical college in Lko is having a very good facility of providing Home Quarantine treatment. They have started this due to the high pressure on the hospitals.

As per little information that I have, they will send a nurse on day 1 with the following:  
All supplements

Sanitiser  
Gloves  
Masks  
BP monitor  
Oxometer  
Thermometer  
Steam inhaler

Nurse will come on day 1, will check the vitals and accordingly provide all necessary instructions. Patient will have to register on their Digidocor app, through which daily update will be provided on the treatment.

PCR test on the last day is also included in this.

There are 2 packages:

14 days package costs Rs 9999/- and includes all of the above

7 days package costs Rs 5999/- and excludes the 4 gadgets from the list above.
